

Ghosts of the Future by low light mixes

An exclusive guest mix for Ambient Music Guide, June 2015

For a mix called **Ghosts of the Future** I immediately thought of the film, *Interstellar*. With its time dilation and communication from Murph's "ghost," the soundtrack was the perfect launch point for this mix.

I also thought of voices as ghosts and worked in some spoken word excerpts here & there, as well as using tracks that had voices or vocoder. Overall I hope the mix conveys a strange, otherworldly feels to it.

00:00 Ian William Craig - Before Meaning Comes
00:35 Hans Zimmer - Where We're Going(Interstellar OST)
05:52 Eskmo - Spvce
07:55 Robert Rich - Premonition of Circular Clouds
